Hearing and Vision Screening for enrolling Kindergarten students

The State of Michigan requires a parent or guardian to present to school officials, at the time of registration or not later than the first day of school, a certificate of hearing and vision testing or screening. A statement, signed by a licensed eye care practitioner (optometrist or ophthalmologist) and/or medical/osteopathic physician, indicating that a child's eyes have been examined at least once after age three and before initial school entry may also be presented.

Your local health department offers this screening at no cost to families and children.

Please call 734-240-7855 to schedule a screening time for your child. The Monroe County Health Department will give you documentation after your child has been screened. Please bring that paperwork to the school office any time between now and the first day of school.

Health Appraisal from Doctor

The State of Michigan also requires a health appraisal from a physician for each child. The health appraisal form must be current. Health appraisals are only good for two years. Also all immunizations must be up-to-date before your child may start school. New state of Michigan law requires that **immunization waivers MUST be obtained from the Monroe County Health Department and brought to the school office before the first day of school.** You **MJUST** call the Health Department (734-240-7855) for an appointment if you are intending to get a waiver. Please do this **SOON!**

Trinity Lutheran School admits students of any race, color national and ethnic origin to all the rights, privileges, programs and activities generally accorded or made available to students at the school. It does not discriminate on the basis of race, color, national and ethnic origin in administration of its educational policies, admissions policies, scholarships, athletics and other school administered programs.
